

## **OXX Digital Selects D&H Distributing for Launch of Wireless (WiFi) Internet Radios into North America**

OXX Digital, an international leader in wireless (WiFi) Internet radios, today announced its partnership with D&H Distributing.

As one of the nation's leading technology distributors specializing in emerging trends across IT, electronics, entertainment and gaming, D&H will distribute OXX Digital's high-end WiFi Internet radio devices into the North America consumer electronics market. OXX Digital products were first showcased to North American retailers during the D&H 2008 Fall Mid-Atlantic Dealer Show in the Emerging Technology Pavilion of the Hershey Lodge and Convention Center in Pennsylvania on Tuesday, October 7, 2008.

OXX Digital brings an array of WiFi Internet radios to the market featuring Scandinavian design and incorporating the world's leading Internet radio chipset. OXX Digital WiFi Internet radios and media players connect to the Internet wirelessly to enjoy listening to Internet radio stations or streaming audio files anywhere with a broadband connection and without being tied to your computer.
